ARTRAGE 2022 SELECTION

ArtRage is QVMAG's annual exhibition showcasing the work of Tasmanian secondary students. The selected works are produced by year eleven and twelve students studying Art Production or Art Studio Practice as part of their Tasmanian Certificate of Education.

The students' work explores themes that have inspired them throughout the year and are an invitation to reflect on how it feels to be a young person living in the world today. There is a vast array of subjects, media and artistic styles on display.

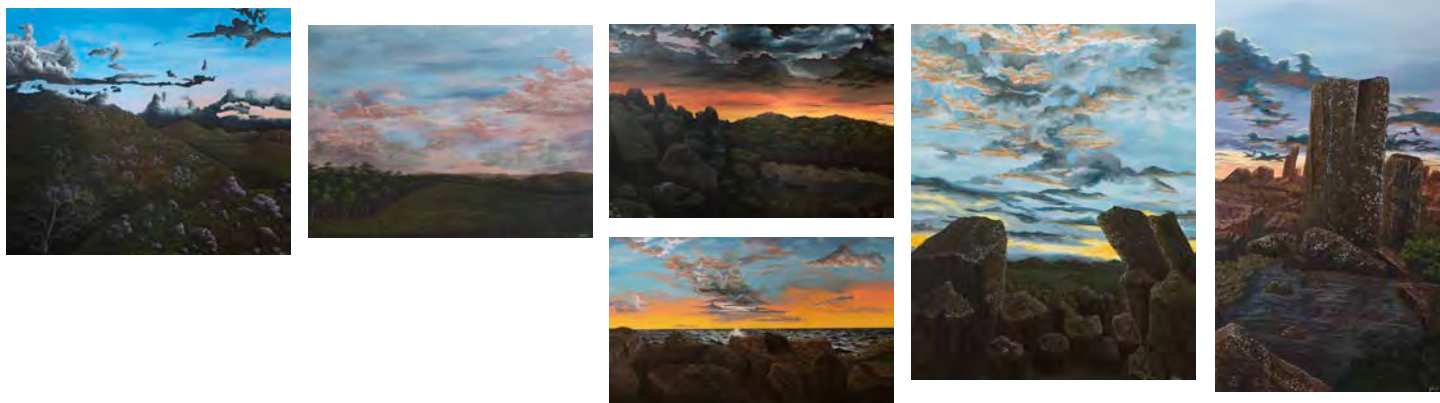

ArtRage is a celebration of the art-makers of the future, and an acknowledgement of the schools and teaching community who have helped shape and guide them.

ACKNOWLEDGMENTS

The Queen Victoria Museum and Art Gallery recognises the enormous support and cooperation that *ArtRage* receives from the college art teachers of Tasmania. We acknowledge the work of these dedicated art educators along with the talented students attending schools and colleges across Tasmania.

EXAMINERS' CHOICE ART STUDIO PRACTICE

ADAM HOWELL | ROSNY COLLEGE

I acknowledge the original custodians of this land, Lutruwita (Tasmania), that these artworks depict.

This year in Art Studio Practice, I have created a series of large-scale acrylic paintings that focus on the presence of a greater power within the Tasmanian landscape. Cloud and rock formations are a key element of my paintings that help convey my concept. My work aims to instil in the viewer the feelings and emotions of being immersed in a powerful environment. I achieve this through the embellishment of form and colour and my artistic interpretation of the environment that surrounds us in Tasmania.

My paintings feature bold and expressive cloud formations that embody a spectrum of emotions and feelings. Similarly to the way that clouds build up into a blanket in the sky, blocking light from the landscapes as a result of pressure systems, human emotions can build up to create a worsened state of mind. The ancient volcanic igneous rocks seen in my paintings are symbolic of the passage of time.

EXAMINERS' CHOICE ART PRODUCTION

ELOUYRA HOVING | DON COLLEGE

The idea for this collection was to try and describe a person's personality solely through their environment. This concept is key in film and media, where purposefully placed objects reveal extra details about characters to the viewer. For each piece, I created a short backstory to influence the items that I chose to feature in the paintings. First I started by picking the object that I would make in clay. I then created a character based on research about the object and its symbolism. The five different characters are split into their own sections, each with three pieces: a large painting, a small painting, and a clay vessel. The sections of the collection are: the lighthouse, the whale, the sardine can, the clock, and the kettle.
